Executive Director Summer Reading Challenge

How to enter: It's simple! Students just need to read something they enjoy and tell us in 50 words or

less why they loved it. Students can read anything they like to enter the challenge, whether it's a comic, play, piece of poetry, book, e-book or graphic novel. This year we have made the challenge easier to enter by removing the minimum number of books to read and provided students with more chances of winning a prize.

The more material a student reads, the more times they can enter the reading challenge and the more chances they have of winning one of four iPad minis.

Entries close at 5pm on 7 February 2017. Terms and Conditions can be found at <u>www.parra.catholic.edu.au</u>

Out n About

Last week and over the next 2 weeks we have been welcoming our

The children have time to connect to their teachers and meet some friends that they will be at school with next year. They have time playing and exploring the Kindergarten classroom together. For the teachers, it is a time to get to know the children and make some observations. The teachers talk to the children about their interests and make them feel at ease about the transition from pre-school to school. The parents also benefit from the morning; spending time with Mrs Cividin getting an insight into what the learning will look like for their children and receiving some valuable information to allow them to prepare their children academically and socially for this new experience.

Whether it is your first child starting school or your last, it is an extremely significant milestone in the life of the child and their family. The kindergarten teachers and the leadership team put much thought and preparation into ensuring that the orientation to school is reassuring and enjoyable.

I always like to say to our incoming parents that 'your child is about to meet lifelong friends and as adults you are about to meet the best friends you will ever have.' We welcome them wholeheartedly into the Our Lady of Lourdes community.

> Kind Regards Julianne Regan

This Term the students in Stage Two have had the opportunity to describe everyday interactions between objects that result from contact and non-contact forces like friction, gravity and magnets in our science unit - May The Force Be With You. Students are know busily working on projects where they are designing and developing a game or toy which uses friction and forces and they will then test these when they present them to Kindergarten shortly.
